Petras Fisheries Pty Ltd was established in 1990 in Sydney, Australia. For many years and still today, Petras has been an importer and wholesaler of live freshwater fish and saltwater marine fish. With years of experience and knowledge in the Aquarium trade, in 2003 Petras ventured into its own brand of Aquarium and pond products in called Aqua Nova.

Aqua Nova is a brand setup for the aquarium hobbyist and pet lovers. Aqua Nova has a wide range of products and is consistently adding ,improving and researching its selection of products. In 2007, Aqua Nova moved into the European market and is showing positive movement and growth with aquarium hobbyist and pet lovers in the region.

To all Aqua Nova supporters thank you for your support and we wish you all the best in growing your business and continuing to provide support to the aquarium industry.

**Curved Glass Aquarium**  
(NT-620 & NT-620T, NT-1000)

- Complete, with built in biological wet/dry filter. (inside cover) Cover is made from thick plastic.
- Complete with filter media (activated carbon, ceramic rings, filter wool)
- Seamless (Curved) front and side glass creates optimum viewing
- Swivel lid protects water from environmental pollutants such as dust and gives easy access for maintenance and feeding.
- Suitable for fresh and salt water fish (comes with ceramic shaft standard)

Colours :  
- Black  
- Lightwood  
- Mahogany  
- Silver  
- White

**NT-620 T (tall) (125 l)**  
6mm glass  
62 x 38 x 68 cm (Aquarium-Hood)  
62 x 38 x 70 cm (Cabinet-flatpack)

Seamless front / Flat Glass Aquarium designed for marine fish (saltwater)

- Complete, with built in glass overflow, in to a sump filter. (mini reef, which is inside cabinet)
- Complete with filter wool, cut to suit the 3 stage sump. (Extra media is optional)
- This unit come with Aquarium, filter which fits into cabinet and all accessories provided. (pipes, hoses, fittings)
- Open top to allow heat to escape, and top brace around glass lids suitable for lighting attachment.
- Comes with ceramic shaft pump, suitable for salt water fish.
- Over flow pipes included and valves,
  - 1) 1 hole, for water flowing down into filter unit.
  - 2) 1 hole, for water that is pumped back up into the aquarium from the pump.
  - 3) 1 hole, if there is a problem with the down flow (for example blocked) there is a safety hole to let water flow down.
- Additional options (extra costs) Aqua Nova metal halides, Aqua Nova protein skimmers with pump and Aqua Nova heater, etc.
- HY-680 and HY-1000, have seamless front glass.

HY-680 (Capacity ~ 205 l)  
Size: 720 x 590 x 1470 mm  
(includes cabinet height)

HY-1000 (Capacity ~ 310 l)  
Size: 1040 x 590 x 1505 mm  
(includes cabinet height)

HY-1300 (Capacity ~ 470 l)  
Size: 1330 x 635 x 1540 mm  
(includes cabinet height)

HY-1500 (Capacity ~ 550 l)  
Size: 1535 x 635 x 1560 mm  
(includes cabinet height)

The stylish new Aqua Nova NM-500 Marine tank & cabinet comes complete with

- ~ 2 x 24w PL lighting (1/2 white, 1/2 blue)
- ~ 3 x blue LED lights (moonlight)
- ~ 7watt UV steriliser
- ~ Adjustable step design cover for hood
- ~ Individual waterproof switches
- ~ 2 x extraction fans to minimise heat
- ~ Undergravel filtration leading in to biological back filters which includes, thick black coarse sponge leading into filter box (noodles included)

- ~ Protein skimmer
- ~ 10watt power head with adjustable flow outlet
- ~ Flow rate of 700 L/H
- ~ Available in Black and Grey only (Cabinet is prebuilt)
- ~ Marine Aquariums are sold as a complete unit
- ~ Tank Dimensions: 48cm(L)x45.5cm(W) x51cm(H). (mm Glass)
- ~ Top Frame Dimensions: 48cm(L)x45.5cm(W)x cm(H).

Aqua Nova Salt is a dynamic new formulation, specifically designed for the needs of the modern reef aquarium. It has been based on state of the art coral reef ecology research. All materials are taken from natural and pure oceanic minerals, ensuring that the properties of coral reef seawater can be accurately replicated. The salt contains abundant amounts of calcium, magnesium, trace elements and active biological substances to achieve elevated levels of calcium and alkalinity reserve without resorting to harmful chemical agents. These components have proven to be effective in assuring the health and growth of all creatures within your aquarium.

- ~ Contains no nitrates or phosphate
- ~ dissolves easily and leaves minimal residue.

Available sizes:

- ~ 2kg Colour Box for 60l
- ~ 4kg Colour Box for 120l
- ~ 14kg Bucket for 420l
- ~ 20kg Bulk bag for 600l

Aqua Nova Aquarium Co2 kits are used to provide the aquarium plants with Co2. Plants need Co2 to grow and thrive. The Co2 kits ensure that your plants receive the appropriate amount of Co2 to flourish.

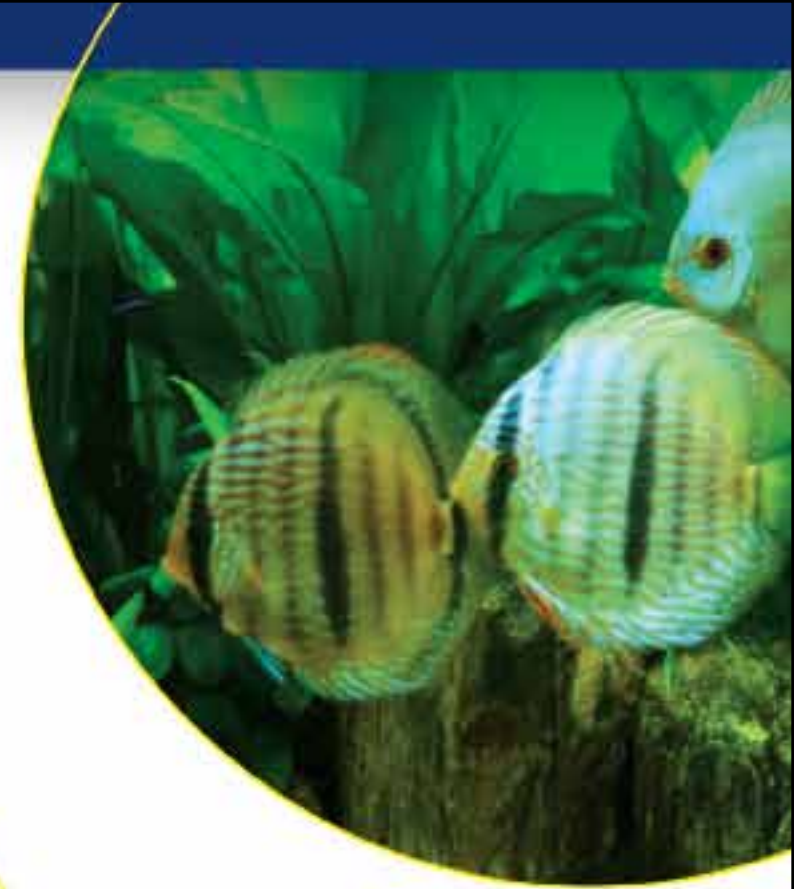

NCo2-2 (set)

- CO2 disposable cartridge 95g
- Bottle support
- Regulator
- Bubble counter
- Check valve
- Ceramic diffuser
- Suction cap

NCo2-1

- Non refillable Cylinder
- Volume: 135 ml
- Contents: 95g ± of CO2
- Bursting pressure: > 480 kg/cm2

NCo2-3 / NCo2-4

Multi-Direction reactor Diffusion of CO2 in water will achieve close to 100% within the shortest time, suitable for tank 60-90 cm or larger than 1.2 m.

NCo2-5

CO2 diffuser

NCo2-6

Bubble Counter

NCo2-6

This connector set allows you use regulator and connect it to the larger refillable cylinder. Gives the customer the advantage of upgrading to larger bottles without the expense of purchasing new regulators.

Aqua Nova Internal filter

Features

- Modern filter design to maximize space of filtration.
- Simple setup and operation.
- Easy to pull apart and clean. quick start.
- Very quiet motor operation and reliability.
- Rotation valves for easy adjustment of direction of flow.
- In box there are full instructions and setup tips.
- Filters comes with course black sponge/s
- Filter comes with airline, valves and necessary fittings for setup. (each model different)
- Filters course black sponge replacement are available.

Aqua Nova Activated carbon

Aqua Nova activated carbon is a high performance filter material that effectively removes residual medicines, chlorine, certain odours and also contaminants which are produced by the metabolism of organic substances.

Aqua Nova activated carbon is packed in a sealed plastic bag to avoid unnecessary mess, and also comes in a Aqua Nova fine black filter bag, this makes it easy to use in any filter. The net has a zipper so you can adjust the amounts of activated carbon in the net.

Activated carbon should not be used while the Aquarium fish are being treated with any form of medication.

Aqua Nova Ceramic rings

Aqua Nova ceramic rings are a high performance filter material that effectively removes residual medicines, chlorine, certain odours and also contaminants which are produced by the metabolism of organic substances.

Aqua Nova ceramic rings are packed in a sealed plastic bag to avoid unnecessary mess, and also comes in a Aqua Nova fine black filter bag, this makes it easy to use in any filter. The net has a zipper so you can adjust the amounts of ceramic rings in the net.

Ceramic rings should not be used while the Aquarium fish are being treated with any form of medication.

Aqua Nova Bio Balls (60pcs—32mm diameter)

Aqua Nova Bio balls, are a biomechanical heavy duty form of filter media. These balls quench mud particles and protect the main filter material from blocking. These balls are ideal for all filter sizes, great for External canister filters and also sump filters.

Bio balls are an artificial housing for the growth of nitrification bacteria. ALSO AVAILABLE IN 2000 PIECE BULK BOX.

Aqua Nova Activated carbon

Pre packaged filter media in fine netting, with easy zipper system)  
 NAC-0.5 = 500grams (0.5kg)

**Aqua Nova T5 light units**

**Features**

- Modern design and compact units.
- NLT5-range black/silver colour unit.
- Simple setup, with optional use of adjustable feet to suit each unit.
- Plastic splash proof cover to avoid water from splashing on globe/s.
- NLT5-range (NLT5-350/600 low output) come with 1 x white plant tube and 1 blue marine tube.
- NLT5-range (NLT5-900/1200/1500 low output) come with 1 x white plant tube and 2 blue marine tube.
- NHT5-range silver colour, with professional 6400k lighting. Especially for marine aquariums.
- NHT5-range has 3 extra features.
  - 1) 90 degree opening in brackets, for easy access and opening to aquarium.
  - 2) Innovative design for the light reflecting to make the light lighter and stronger.

MODEL	UNIT LENGTH	WATT (LIGHT TUBE T5)	POWER (FREQUENCY)	VOLTAGE

Aqua Nova Metal Halides

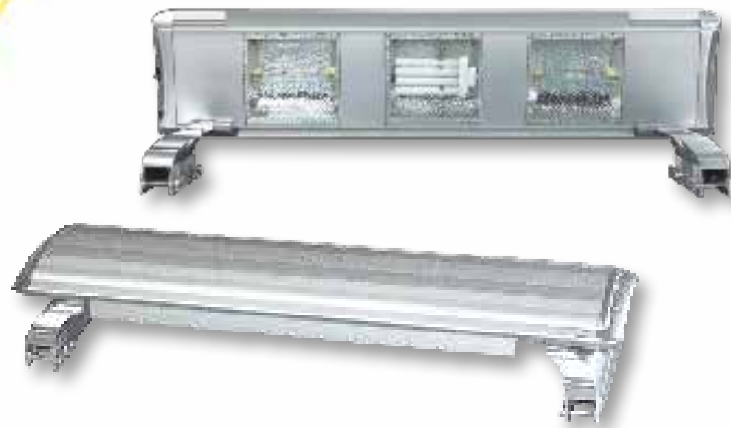

First generation aquarium Metal Halide Bulbs. This bulb is good choice for freshwater and plant aquarium. It gives a warmer white, with a full spectrum appearance to the aquarium.

This bulb appears to the naked eye as crisp ice white, clear arctic blue. The 14000K bulb combines the best characteristics of the 10000K and the 20000K bulbs and eliminates the need to add supplemental florescent or compact fluorescent arctic blue lighting.

The 20000K will bring out the fluorescence in fish and corals, giving the aquarium more of a black light effect. This bulb is a good choice for deep marine species.

MODEL	Watt (MH=HALIDE)	K (Kelvin)
NMH-150	1x150WMH	20000K
NMH-700	1x150WMH ~ 1x27W PL	20000K
NMH-1000	2x150WMH ~ 1x27W PL	20000K
NMH-1200	2x150WMH ~ 2x27W PL	20000K
NMH-1500	3x150WMH ~ 2x27W PL	20000K

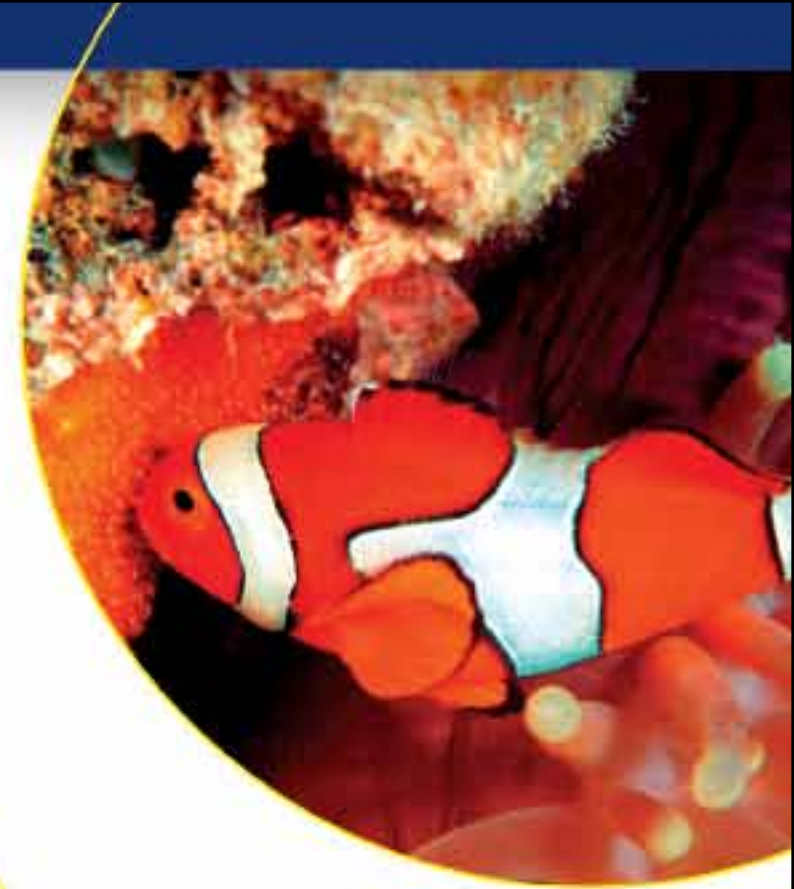

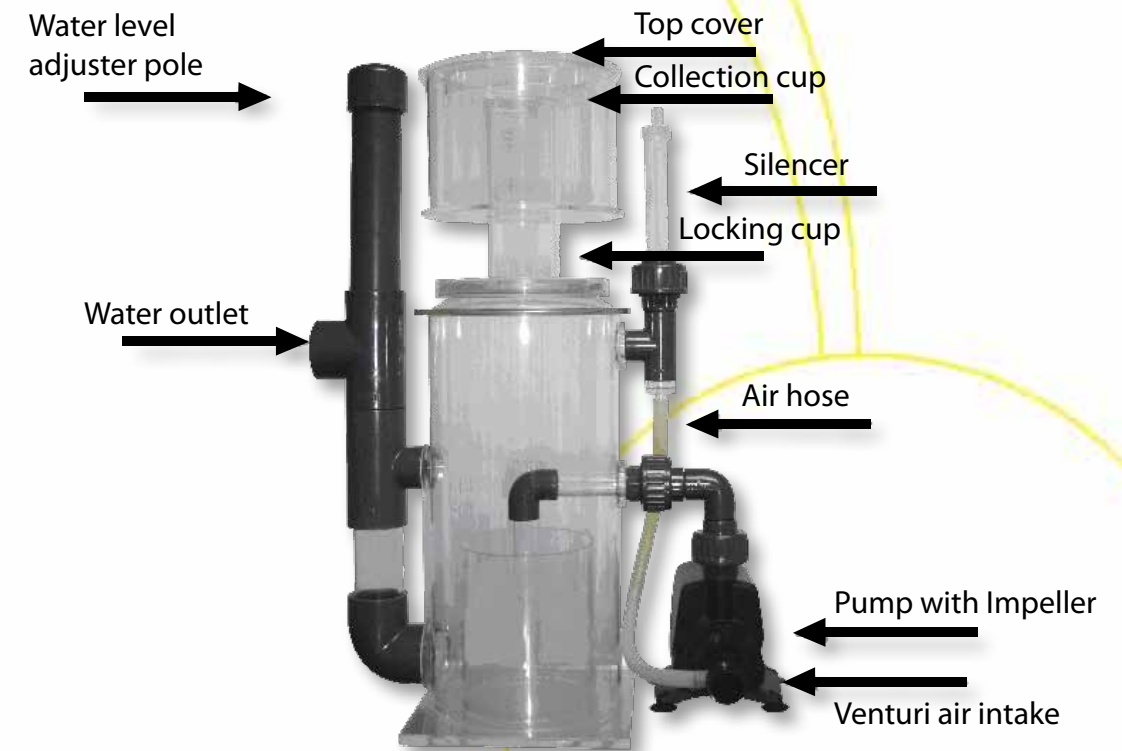

Protein Skimmers

All of our skimmers are handcrafted using the latest tools and technology. They have been specifically designed for aquarium use and tested by professionals.

INTERNAL TYPE PROTEIN SKIMMER

Internal Aqua Nova protein skimmers are high performance skimmers with design and production based on high quality standard and maximum effect in spite of the very low height. This type of skimmer has to be placed inside the filtration plant. Very fine bubbles are obtained through the special pins and the air venturi intake in which works through the water flow. The skimmers are available in different sizes, suitable for all tanks.

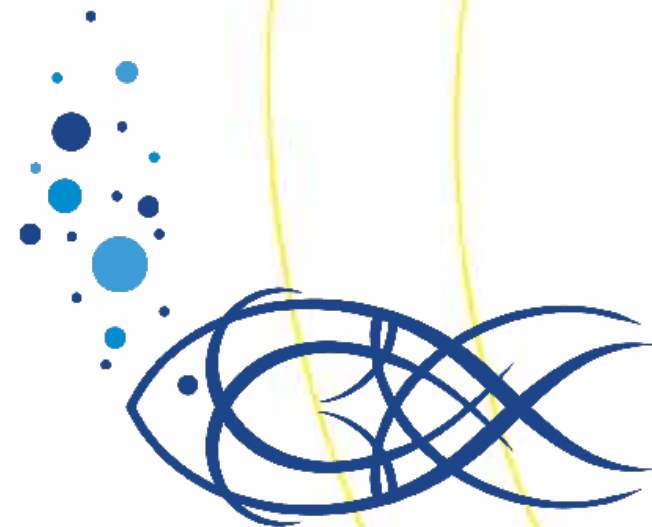

Aqua Nova Fountain pump / Pond pumps

- Fountain pond pumps
- Wearproof ceramic shaft which will last longer.

MODEL	WATTS	Flow rate (l/h)	H.max (m)	Dimensions (mm)	Shaft
NPP-350	6	350	1.7 m	57x41x46	Ceramic
NPP-600	8	600	1.1 m	69x51x57	Ceramic
NPP-1000	14	1000	1.8 m	95x58x69	Ceramic
NPP-2000	35	2000	2.5 m	107x69x91	Ceramic
NPP-3000	60	3000	2.8 m	121x76x106	Ceramic
NPP-5000	98	5000	3.6 m	145x110x113	Ceramic

NPP-SERIES

- High performance standard asynchronous motor with new design, and energy saving up to 50% than before.
- High pump heads and larger flow output.
- Can pump dirt particles up to 6mm in size.
- Adapted wearproof ceramic shaft that will last longer time.
- Non-submersible installation possible.
- Pre-filter included.
- 10m cable.

MODEL	WATTS	Flow rate (l/h)	H.max (m)	Dimensions (mm)	Shaft
NPP-4500	35	4500	2.6 m	302x160x171	Ceramic
NPP-6000	65	6200	3.7 m	302x160x171	Ceramic
NPP-8000	95	8100	4.5 m	302x160x171	Ceramic
NPP-10000	115	10000	5 m	302x160x171	Ceramic

NJP-SERIES

- High pump head and larger flow rate.
- High performance, sturdy asynchronous motors.
- Can pump dirt particles of size up to 6mm
- Adopt wearproof ceramic shaft which can be used in a longer time.
- Non-submersible installation possible
- Pre-filter included
- 10m cable

MODEL	WATTS	Flow rate (l/h)	H.max (m)	Dimension(mm)	Shaft
NJP-15000	290	15000	6,5 m	246x150x195	Ceramic
NJP-20000	420	20000	7,5 m	246x150x195	Ceramic
NJP-25000	520	25000	8 m	246x150x195	Ceramic
NJP-30000	660	30000	8 m	246x150x195	Ceramic

**N-PFEEDER**

- The Aqua Nova pond feeder is used for garden ponds with fish (such as Koi carp)
- Aqua nova pond feeder with battery operated timer for regular feeding. (battery included)
- perfect for garden ponds

SP-1 - New solar powered comes complete with solar panel and fork for easy mounting into ground.

- 300L/H compact pump
- Delivery head Hmax. (m) - 0,55
- Dimensions LxWxH (mm) - 12,5x6x8,5

**FT-01**  
Fountain Connections for  
NPP-350/650/1000  
2 pieces included

**FT-02**  
Fountain Connections for  
NPP-350/650/1000  
2 pieces included

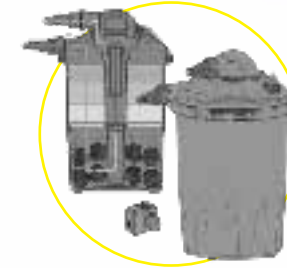

**FT-03**  
Fountain Connections for  
NPP-4500/6000/8000/10000  
4 pieces include

**FT-04**  
Fountain Connections for  
NPP-4500/6000/8000/10000  
8 pieces included

**FT-05**  
Fountain Connections for  
NPP-4500/6000/8000/10000  
12 pieces included

**PF-10 PRESSURE FILTER WITH UV LIGHT (Flow rate 1500L/H)**

**PF-20 PRESSURE FILTER WITH 9w UV LIGHT (Flow rate 2500L/H)**

**PF-30 PRESSURE FILTER WITH 11w UV LIGHT (Flow rate 4500L/H)**

The filter unit is IP44 rated as weatherproof & can be buried in the garden up to the lid.  
12VAC low voltage, including 12VA IP44 rated weatherproof transformer.  
7.5m LV cable plus 1.8m mains flex on transformer.  
Full 360 degree outlet head adjustment.  
Cleaning indicator for foam sponge maintenance

Uses industry standard PL-S, PF-10=7W UV bulb.

Uses industry standard PL-S, PF-20=9W TUV bulb.

Uses industry standard PL-S, PF-30=11W TUV bulb.

Step-down outlet adaptor 12.5/20/25mm & 1" BSP male threaded outlet & inlet.

PF-10 = 10L Container

PF-20 = 20L

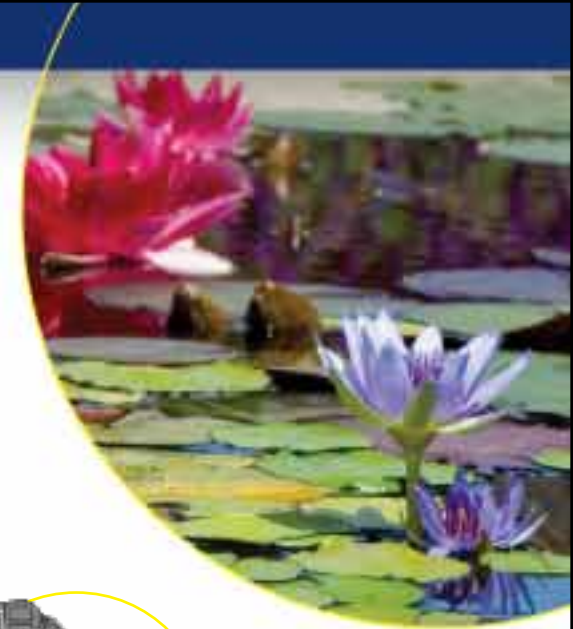

PF-30 = 30L

**NUB-6000**

- Aqua Nova Pressure box filter with 9w UV light, for ponds up to 6000L
- UV light = 9watts
- comes with filter media and fitting sizes are 20/25/32/40(mm)
- 10 metre cord for UV light
- Dimensions 380(L) x 280(W) 383(H) mm

**NUB-12000**

- Aqua Nova Pressure box filter with 11w UV light, for ponds up to 12000L
- UV light = 11watts
- comes with filter media and fitting sizes are 20/25/32/40(mm)
- 10 metre cord for UV light
- Dimensions 560(L) x 380(W) 437(H) mm

**NUVC-09 UV Clarifier 9w (for ponds)  
(includes bulb)**

- Volume of pond = 4.5m<sup>3</sup>
- Flow rate (L/H) = 3500
- UV light = 9watt
- Outlet connection (mm) 20 / 25 / 32 / 40 (4 options)

**NUVC-11 UV Clarifier 11w (for ponds)  
(includes bulb)**

- Volume of pond = 5.5m<sup>3</sup>
- Flow rate (L/H) = 7000
- UV light = 11watt
- Outlet connection (mm) 20 / 25 / 32 / 40 (4 options)
- GE and CE approval for european market and euro plug
- Size : 310 (mm)Length

**NUVC-18 UV Clarifier 18w (for ponds)  
(includes bulb)**

- Volume of pond = 8m<sup>3</sup>
- Flow rate (L/H) = 9000
- UV light = 18watt
- Outlet connection (mm) 20 / 25 / 32 / 40 (4 options)
- GE and CE approval for european market and euro plug
- Size : 313 (mm)Length

**NUVC-36 UV Clarifier 36w (for ponds)  
(includes bulb)**

- Volume of pond = 18m<sup>3</sup>
- Flow rate (L/H) = 15000
- UV light = 36watt
- Outlet connection (mm) 20 / 25 / 32 / 40 (4 options)
- GE and CE approval for european market and euro plug
- Size : 503 (mm)Length

**NUVC-07 UV Clarifier 7w (for ponds)  
(includes bulb)**

- Volume of pond = 3.5m<sup>3</sup>
- Flow rate (L/H) = 1500
- UV light = 7watt
- Outlet connection (mm) 20 / 25 / 32 / 40 (4 options)

**Auto feeder**

- Aqua Nova automatic feeder (batteries included) LCD screen.
- Suitable for food up to 3mm
- 5 feeding time every 24hours - programmable.
- Child lock, Simple use.
- Suitable for fresh and salt water fish

**T-08**

- Aqua Nova Glass thermometer

**T-DIG**

- Aqua Nova Digital thermometer (includes suction cup and battery)

**T-07**

- Aqua Nova Plastic thermometer (stick on glass)

**NTH**

- Aqua Nova precision yellow glass thermometer (includes suction caps)

### Fish Net, 3 wire Handle

Black course Nets, with black netting, Strong handle.

#### Sizes:

- 3" (7,5cm)
- 4" (10cm)
- 5" (12,5cm)
- 6" (15cm)
- 8" (20cm)
- 10" (25cm)

### Filter Sponge

These sponges are replacements and cut to size for Aqua Nova products and also for use in other filters and sumps besides Aqua Nova products.

(L) cm x (W) cm x (H) cm

**NT-380 Sponge**  
26 x 12 x 2cm (White-fine)

**NT-480 Sponge**  
36 x 12 x 2cm (White-fine)

**NT 620, NT-1000, NT-1000T Sponge**  
43 x 12 x 2cm (White-fine)

**R-Series and RH-Series Sponge (All sizes)**  
36 x 12 x 2cm (White-fine)

**NCF-600/800**  
17 x 17 x 2cm (White-fine)  
17 x 17 x 2cm (Black-course)

**NCF-1000/1200/1500**  
21 x 21 x 2cm (White-fine)  
21 x 21 x 3cm (Black-course)

**NCF-2000**  
23 x 23 x 3cm (White-fine)  
23 x 23 x 3cm (Black-course)

### Air Line

N-WN2; Aqua Nova air line is a 2metre standard size (4mm) silicone tubing..

- TUB-100; 100m  
Coil of Silicon tubing
- TUB-200; 200m  
Coil of Silicon tubing

### Air Curtain

Aqua Nova Air curtain are made from good quality material and packed in blister packs.

#### Size:

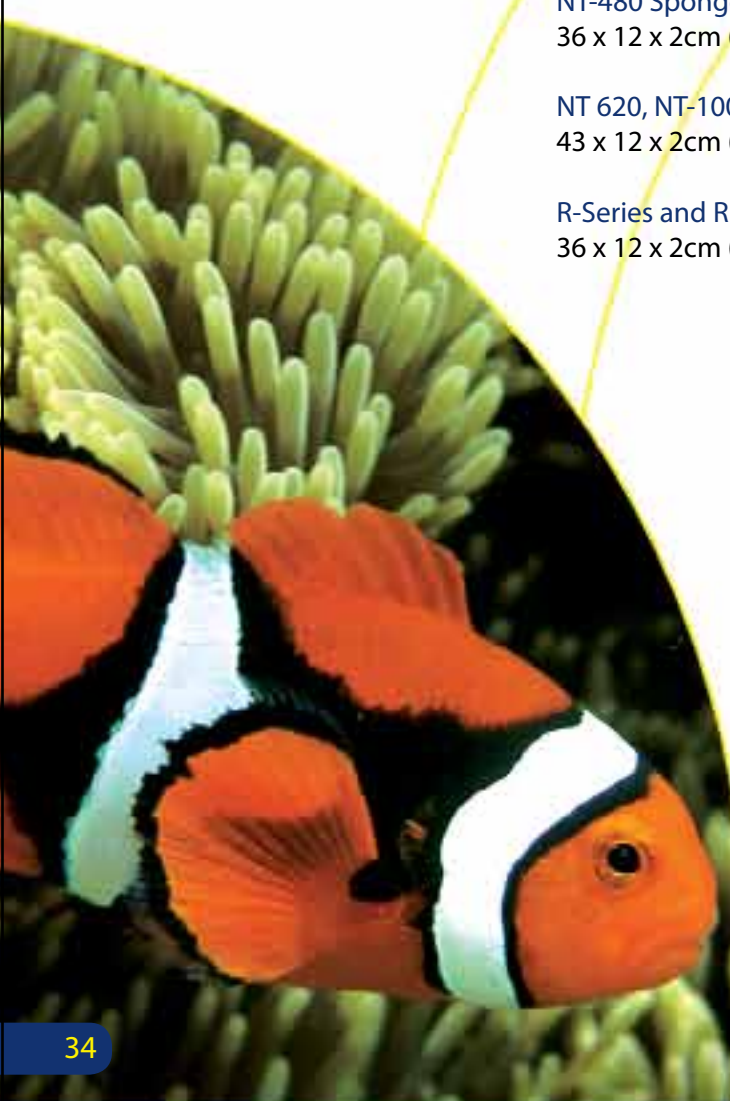

- AC-8" (20cm)
- AC-12" (30cm)
- AC-18" (45cm)
- AC-24" (60cm)
- AC-30" (75cm)
- AC-42" (105cm)
- AC-48" (120cm)

### Air Stones

Aqua Nova has several types of air stones.

- AS-1 (2.5cm x 1.5cm, Small-Cylinder)
- AS-2 (3cm diameter, Medium-Sphere)
- AS-3 (5cm x 2.5cm, Large-Cylinder)

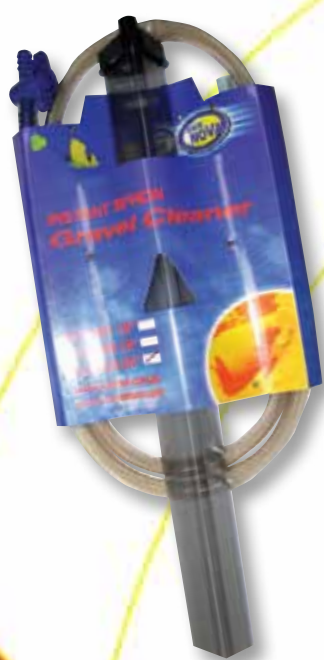

### NMC-Magnet cleaner series

Includes 3 sizes, suitable for different thicknesses of glass

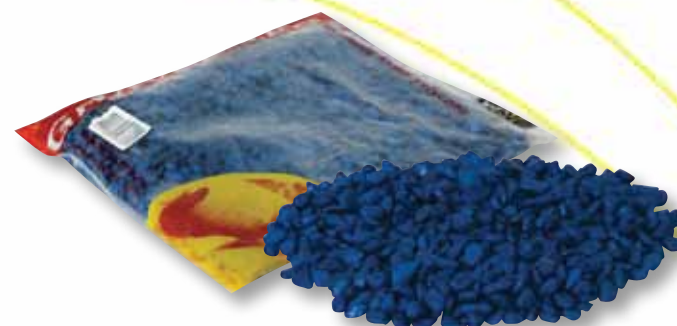

- NMC-S – Small (7cm x 3.5cm)
- NMC-M – Medium (9cm x 4.5cm)
- NMC-L – Large (11cm x 5.5cm)

### GC-Gravel Cleaner series (with adjustable valve)

Includes 3 sizes, suitable for small, medium and large aquariums

- GC-301 – 10"/25cm (258mm Long Triangular Cleaner)
- GC-302 – 18"/45cm (458mm Long Triangular Cleaner)
- GC-303 – 24"/60cm (612mm Long Triangular Cleaner)

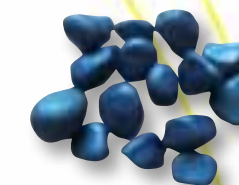

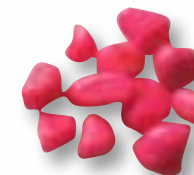

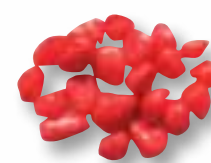

### Coral sand

- Packed in 5kg bag (approximately cut to 2mm)

### Coloured Gravel

- Packed in 1kg bags, in Blue, Purple, Pink, Red

### Aqua Nova Plastic plants (different types)

- NP-6 (15cm high, with ceramic base)
- NP-12 (30cm high, with ceramic base)
- NP-20 (50cm high, with ceramic base)

### Hydrometer (HY-01)

Aqua Nova Hydrometer. The device reads the salinity and specific gravity of the saltwater aquarium (from 1.008-1.030)

Aqua Nova Plastic Plants.  
Size: 15cm, 30cm, 50cm

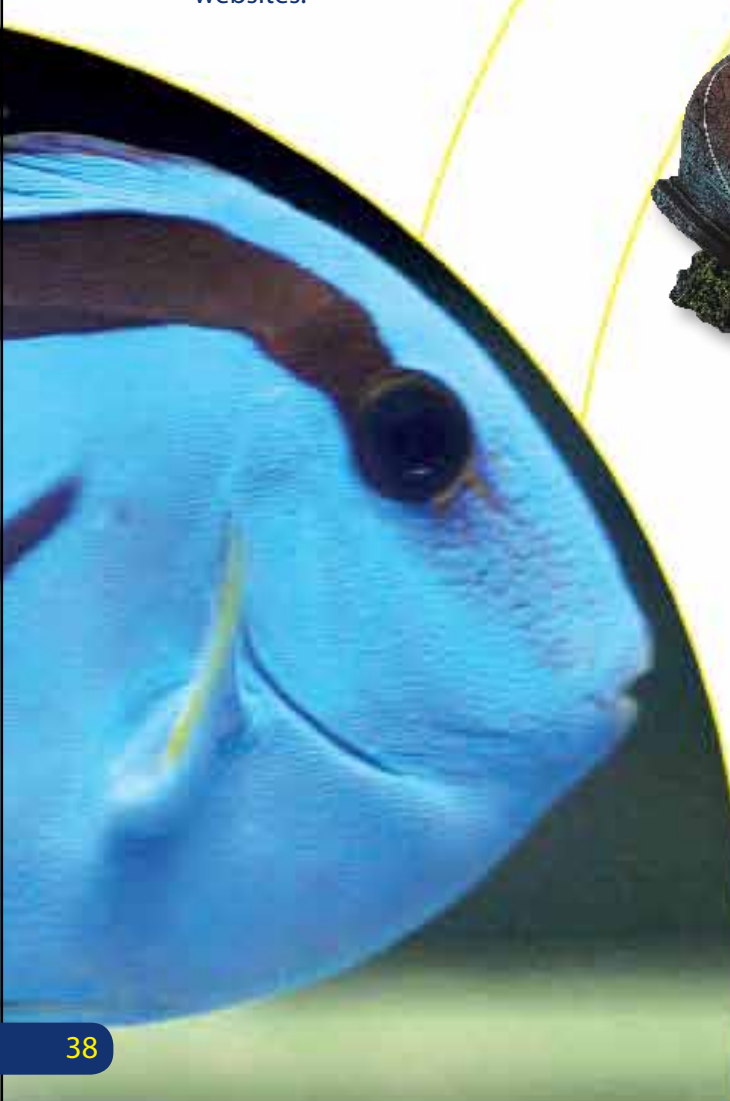

Aqua Nova offer more than 100 types of beautiful aquarium ornaments. Including shipwrecks, cave mountains, rock mountain. Customer can also find monthly updated details on the aqua nova websites.

Aqua Nova offer more than 10 types of backgrounds in all standard sizes. More examples you can find at Aqua Nova websites.
